## Avalara integration confirmed with S2K Vision release

**WEST DUNDEE, IL (February 17, 2017)** – Davisware has continued to leverage its partnership with sales tax automation leader, [Avalara](http://Avalara.com), by integrating a second ERP platform with the cloud-based software provider.

In Q1 2016, Davisware's GlobalEdge ERP solution joined forces with Avalara to offer a fully-integrated interface with an 'end-to-end suite of sales and other transactional tax compliance solutions.' Today, we are proud to announce a second certified integration with our trusted sales tax automation partner and the highly-anticipated rewrite of S2K, S2K Vision.

'Davisware is an advocate of forging partnerships with companies who offer a legitimate and value-added service to our customers,' says Jennifer Davis, President, 'and by having both platforms equipped with this service, Davisware, in conjunction with Avalara, is able to offer this value add as an option to even more customers who could benefit from outsourcing the rigorous sales tax process.'

As Davisware continues to take a proactive approach to ever-evolving technology trends, we value the partnership forged with Avalara and are confident our system integrations will be a significant benefit and resource to our customers.

For more information, please contact [info@davisware.com](mailto:info@davisware.com) or visit [www.avalara.com](http://www.avalara.com).
