Kitchen Brains® Partners with Grindmaster®-Cecilware® to demonstrate IoT enabled Radiance cappuccino dispenser system at the 2016 NRA.

WEST DUNDEE, IL (May 17, 2016) – Kitchen Brains proudly announces its partnership with Grindmaster-Cecilware for IoT technology on the Radiance top-of-the-line cappuccino delivery system. This includes a real-time connection to the Davisware GlobalEdge platform. Radiance utilizes Kitchen Brains leading edge IoT technology to deliver real-time, actionable equipment performance data. Kitchen Brains' IoT platform communicates Radiance performance information to Davisware's GlobalEdge platform, generating automatic notification and dispatch of service providers.

At the National Restaurant Association (NRA) show in Chicago, Grindmaster-Cecilware will demonstrate the three-model Radiance product line with its unique state of the art technology-driven design powered by Kitchen Brains IoT. Experience a demonstration of the Radiance dispenser system at NRA Booth #4026 during the May 21-24 food industry trade show.

“We are pleased to have partnered with Grindmaster-Cecilware to leverage IoT with a dispenser system that keeps the restaurant operator connected to their operations by increasing profit and revenue, enhancing customer loyalty, and providing a powerful competitive advantage with easy access to equipment KPI's. Now with our Davisware interoperability, we have raised the bar on service response times, preventative and predictive maintenance. Kitchen Brains revolutionary IoT connectivity, Radiance's innovative design, and the power of the Davisware platform is a combination and capability never seen before in the Foodservice industry” said Mario Ceste, Kitchen Brains CEO.

On May 19 just prior to the NRA show at the CFESA conference in Chicago, Jennifer Davis, President of Davisware, the leading provider of integrated software solutions for managing service-oriented businesses, will discuss this exciting Kitchen Brains partnership with an audience of service providers gathered from around the country.

Kitchen Brains has made several recent announcements that showcase and take optimal advantage of its IoT capabilities. In April, a partnership with Austin based HotSchedules, a leading provider of cloud-based mobile technology for the restaurant and hospitality industries was announced with Kitchen Brains SCK Quality Production Manager (QPM) solution. The Kitchen Brains SCK Food Safety Manager (FSM) is a recipient of the 2016 Kitchen Innovations Award from National Restaurant Association.

Kitchen Brains will be showcasing their Genius Suite SaaS IoT applications at both the NRA Kitchen Innovations Pavilion #2440 and NRA Booth #5353 which will also feature their signature FASTIMER timer and FASTRON appliance control product lines along with the Modularm refrigeration monitoring and alarm systems.

For more information about recent innovations and new products at Kitchen Brains® visit our website at www.KitchenBrains.com. To learn more about the new Radiance line of Cecilware powdered beverage equipment, please contact the Grindmaster-Cecilware team at info@gmcw.com. About Kitchen Brains

For over 45 years Kitchen Brains, more commonly known by the iconic (FAST.) brand name, has globally helped restaurants deliver hot, fresh, available food. Our leading-edge timing and control devices are deployed individually and in unison. They integrate wirelessly across all equipment, powered by SaaS apps solely built for the Smart Commercial Kitchen®.

Labor, training, and operational costs are lowered, while the highest standards for food safety and product quality are met. Management has seamless accessibility to Key Performance Indicators, with cloud-based dashboards and control from anywhere.

Kitchen Brains has delivered its control technologies on millions of appliances used in hundreds of thousands of foodservice locations worldwide in 40 countries. For more information visit: <http://www.kitchenbrains.com>.

About Davisware, Inc.

Davisware, Inc. was founded in 1988 by Dan and Jennifer Davis. Since inception, Davisware has employed a service-first approach and upheld its mission to offer comprehensive, all-inclusive technology products serving our users' unique business needs. By closely working with our U.S. and Canada customers, as well as partnering with the best technology providers, we offer technology solutions critical to the growth and success of your business.

Davisware's premier product lines, including GlobalEdge (GE), S2K Vision, Global Field Solution (GFS), Global One Fleet (GOF), E2 and Global Warranty (GW), in conjunction with a dedicated customer service team, intuitive ability to continually update our technology systems and a strong commitment to excellence, give us and our users the competitive advantage in the marketplace.
